

TOUCH SERIE 9 PRO

The interactive display designed to increase productivity and encourage team collaboration.

Everything you need is built-in and at your fingertips. Simply slide your fingers on the screen and your meeting room becomes the perfect space to communicate effectively with your customers and spark the creativity of your employees.

The **TOUCH SERIE 9** is now so **Pro**

The new interactive display TOUCH SERIE 9 PRO is the perfect bet for the innovation and digitalisation that your company needs. A new way to transmit, in a professional way and through the meeting rooms, your brand image.

With the new Serie PRO it will be as easy as effective to arouse the interest and maintain the commitment of your listeners. Bring your products and services to life through presentations or video calls in 4K UHD resolution. Surprise your customers, suppliers or dealers with the latest technology and don't miss any business opportunity.

Encourage teamwork and easily create collaboration, reflection and brainstorming sessions among your team. A new space where everyone can share and collaborate no matter where they are in the world. The new TOUCH SERIE 9 PRO allows you to make your company a much more participative, efficient and productive workplace.

1 Collaboration and productivity

Download as many Apps and resources as your devices need without worrying about space. The new TOUCH SERIE 9 PRO has up to double the storage space along with the Android 9 Pie operating system. A total of 64GB (ROM) that will allow you to have all the resources you need on your interactive display.

2 Unprecedented speed

Work with big data management programs, logs or reports with no interruption. Enjoy the best performance in your day to day, working quickly and smoothly with intensive applications thanks to the Serie Pro that multiplies x2 its processing memory to 8GB of high-speed LPDDR4 RAM.

3 The latest technology comes as standard

Say goodbye to connecting cables, long booting times and forget about any connection problems at the most important moment of your meeting. Say hello to fast and secure connection, sharing your PC, tablet or mobile screen in real time thanks to EShare bidirectional wireless technology.

4 The space of the future today

Write, mark, underline or erase with your hand or the Dual Pen on any content on the interactive display. Don't miss any idea! Make your team forget about pen and paper, let the ideas flow non stop by easily sharing the results via QR code or sending the final content via email.

5 Personalised to your needs

Find the perfect size for smaller or larger rooms and easily connect webcams, speakers and microphones. Create an environment with the sharpness and resolution your video conferencing, training or presentations need. Even if you need to work with 100% Windows or Linux environments, integrate our OPS with Intel Inside technology and enjoy the best of both worlds.

6 Everything under control

Enjoy maximum security at any time. Do your guests ask for your Wi-Fi password? Share your Internet connection via the Hotspot function included in the interactive display. Do you need more control? With the DMCS service you can manage all the interactive displays in your company: massively install Apps, create different users and profiles by department, set their permissions, assign which content is available and prevent them from uninstalling or changing settings.
