# TOUCH SERIE 9 PRO

The interactive display designed to maximise active and collaborative learning

Everything you need is built-in and at your fingertips. Simply slide your fingers over them and your classroom will enter into a new world of applications that offer you an almost infinite range of educational content.
TOUCH SERIE 9 is now really Pro

The new interactive display TOUCH SERIE 9 Pro is the perfect tool to boost learning through content interaction. Increasing the enthusiasm and engagement of your students is easy.

Everything you need is built-in and at your fingertips. Simply slide your fingers over them and your classroom will enter into a new world of applications that offer you an almost infinite range of educational content.

Don't give up the latest technology in education due to lack of space. The Pro Series adapts to your students and classrooms. Find the perfect size for the smallest spaces or the optimal model for your school's assembly hall or auditorium. Discover the ideal stands for the smallest members of the class with low positions up to 300 mm.

High-performance MediaTek 9950 chip

Eye Care protection

Hotspot Wi-Fi function

New HDMI-Out port

1. Much more engaging lessons

Install and incorporate large amounts of complementary resources to textbooks. The new TOUCH SERIE 9 Pro has double the storage memory along with the Android 9 Pie Operating System. A total of 64GB (ROM) that will allow you to install more than 170 Apps with educational content on your interactive display.

2. The performance you need

Working with intensive Apps has never been so easy. Keeping students' attention and improving their performance with Apps that need to process large amount of data (3D modelling, photo editing, video editing...) and doing so without any interruption in a fast and fluid way is possible thanks to the Pro series, that increases x2 its processing memory up to 8GB of high-speed LPDDR4 RAM memory.

3. Unprecedented speed

Say goodbye to connecting cables to your computer, long start-up and connecting times, continually calibrating the projector, shadows on the whiteboard, annoying noise from the projector's fans and light hitting your eyes. Welcome the start of your lessons in seconds with our Pro interactive display, thanks to the extraordinary power of the Mediatek 9950 chip.

4. Everything under control

With the ORBYS DMCS™ service you will remotely and centrally manage all your ORBYS interactive displays. Install and decide which Apps are available by generating profiles. Prevent them from uninstalling Apps or changing the device settings, lock the interactive display until they identify with their own CEI card or PIN.

5. Simply usable and safe

Interactive media has never been so easy and safe to use. The TOUCH SERIE 9 PRO is designed to allow you to work in an intuitive environment through an interface that unites simplicity with the most Pro functionalities. In addition, the new series also features Cloud infrastructure hosted in European data centres in compliance with GDPR. Feel the peace of mind knowing that your data is safe with automatic cache deletion at logout.

6. The latest technology comes as standard

Enjoy our self-developed Apps designed for classrooms. MyClass App will offer you a space for productive brainstorming sessions, create activities, collaborative spaces and much more. Go further and accelerate gamification by challenging your students with our ORBYS QUIZ App.
